## Outdoor Emergency Lighting In Its Natural Habitat

Let LED Power Work For You  
In Emergency Situations

### ***Innovative Outdoor Emergency Lighting Powered by High-Output LED Technology***

The Dual-Lite PG Series provides advanced LED technology; unique reflector/lens design; minimum one-foot-candle egress path; wet-location, cast-aluminum enclosure; and upscale styling in a single unit. It's perfect for placement over any exterior entrance/exit or along perimeter walkways.

Choose from three lightly textured powder-coat finishes. Spectron<sup>®</sup> self-testing/self-diagnostic circuitry is included standard for performance reliability and ease of maintenance.
