## Self-Luminous Exit Sign With ABS Frame

Catalog Number	
Comments	Type

### FEATURES

#### Application

The SLP Series is a self-luminous exit sign which offers continuous illumination with no electrical power required. The exit sign is totally self-contained and offers single or double-face operation with universal chevrons. The SLP Series is ideal for damp, wet and extreme temperature applications.

#### Construction

Single and double face models are available with a flame retardant, UV stabilized, injection molded ABS thermoplastic frame.

#### Installation

The SLP exit can be wall or ceiling mounted by use of a universal mounting plate which is included. The exit can also be pendant mounted by use of a pendant mount accessory which must be ordered separately.

#### Illumination

The exit face is illuminated by tritium gas (a natural isotope of hydrogen) which is sealed inside phosphor lined glass tubes. The SLP series has a 10 or 20 year effective service life. Letters are 6" high, 3/4" stroke, standard exit sign. Maximum distance for legibility is 100 feet.

#### Compliances

UL Listed to UL 924 Standard  
NFPA 101 Life Safety Code

#### Warranty

The SLP series is warranted for the full rated service life of the product which is 10 or 20 years depending on the model selected.

**ABS Frame**
